New Views On Aging Conference 14th & 15th September 2017 in Paris

Dear Colleagues,

We are delighted to announce our two-day conference “New Views On Aging” the 14th and 15th of September 2017 in Paris. This conference is dedicated to the development of new interdisciplinary connections and will present pioneering theories about aging and frailty.

Main themes of the conference are (i) The mechanisms and biomarkers of aging from model organisms to humans, (ii) From the pursuit of longevity to healthy aging (Exercise, nutrition, mild stresses, etc.), (iii) Frailty from detection to interventions, (iv) Adapting to an Aging Society (healthcare systems, social organizations, Social Security financing, the silver economy, etc.)

We invite, social and biological scholars, researchers, practitioners and industrial partners to share in this unique conference with us.

Registration is now open and abstracts can now be submitted online for short talks and poster sessions.

For more information please visit our website: <https://newviewsonaging.com/>

Let's challenge our views on aging,

Adrien Marck (IRMES/Paris Diderot), Anne-Sophie Rigaud Monnet (APHP/Paris Descartes), Frederic Sandron (CEPED/IRD), Geoffroy Berthelot (IRMES/Paris Descartes), Jacques Epelbaum (INSERM/Paris Descartes), Jean-François Toussaint (IRMES-INSEP/AP-HP), Jean-Marc Di Meglio (CNRS/Paris Diderot), Pascale Piolino (INSERM/Paris Descartes), Philippe Noirez (IRMES-INSEP/Paris Descartes), Pierre-Paul Vidal (CNRS/Paris Descartes), Valentina La Corte (CPSC/Paris Descartes), Victoria Cristancho-Lacroix (APHP/Paris Descartes) & Vincent Touzé (OFCE/Sciences Po)

Conference 14th & 15th September 2017 in Paris

Thursday 14th September – Morning session	
08:45	Introduction DdV: Jean-Marc Di Meglio
09:10	Keynote #1 – Jean-Claude Ameisen (Université Paris Diderot)
09:55	Scientific session I – Frailty from detection to actions
10:00	Inge Cantegreil-Kallen <i>A psychosocial cognitive behavioral approach for frailty family caregivers</i>
10:15	Emmanuelle Duron <i>Assessment of frailty among informal caregivers of demented patients</i>
10:30	Marco Sperduti et Pascale Piolino (DdV program) <i>Interaction between attentional systems and episodic memory encoding in aging: the role of conflict resolution</i>
10:45	Coffea Break
11:15	Qiwen Shen <i>Effect of Age on Balance: A Study Using Virtual Reality</i>
11:30	Guillaume Ulmann <i>Hypermetabolism in the elderly cancer patient: a pilot study</i>
11:45	Laura Brito <i>Evaluation of dysexecutive syndrome during the execution of ecological task: extraction of gaze indicators and dimensionality reduction</i>
12:00	Keynote #2 – Mylène Aubertin (Université du Québec à Montréal, Canada) <i>Impact of physical activity on aging</i>
12:40	Lunch: Wine & Cheese + Poster session Exhibition: wandering in virtual reality environments

New Views On Aging Conference 14th & 15th September 2017 in Paris

12:40: Lunch, Posters session & virtual reality

Thursday 14th September – Posters session			
#1	Laurent Bosquet <i>Relationships between lower body strength and the energy cost of treadmill walking in a cohort of healthy older adults: a cross-sectional analysis</i>	#9	Victoria Cristancho-Lacroix <i>Identifying variations in handwriting parameters in patients with major and minor neurocognitive disorders, and controls without objective cognitive impairment</i>
#2	Juan Mantilla <i>Evaluating gait coordination and step-to-step symmetry in elderly people within the project 5p (Prestation de Parcours Participatif Personnalisé de Prévention)</i>	#10	Marine Lanfranchi <i>Focused ultrasound mediated Gene immunotherapy and its effect on amyloid beta pathology</i>
#3	Alice Nicolai <i>Emphasizing alteration of postural control in elderly with feature selection</i>	#11	Alexia Buis <i>LIPL-5/LIPF is a coelomocyte lipase that regulates fat catabolism and diet-induced lifespan extension in response to starvation in <i>Caenorhabditis elegans</i>.</i>
#4	Gregory Faraut <i>Longitudinal follow-up of Fried frailty criteria equivalence with the prism of Discrete Event System</i>	#12	Ana Santos <i>Chronological aging in <i>E. coli</i> can be genetically modulated</i>
#5	Sophie Blanchet <i>Impact of Attention Process Training (APT-II) on cognition and daily life activities in older individuals with Mild Cognitive Impairment</i>	#12	Geoffroy Berthelot <i>The age-performance relationship</i>
#6	Patricia Lino <i>Modified SAPAP3 in post synaptic densities in Huntington's disease</i>	#13	Emmanuel MOYSE <i>The Mastere-2 "Biology of Aging" of Paris-Sorbonne-City Universities: training future actors of translational research about aging mechanisms and therapeutics.</i>
#7	Kouloud Abichou <i>Does Sleep has a beneficial effect on Episodic Memory Consolidation in Aging? A Virtual Reality Study</i>	#14	—
#8	—	#16	—

New Views On Aging Conference 14th & 15th September 2017 in Paris

	Thursday 14th September – Afternoon session
14:20	Keynote #3 – André Masson ((EHESS, CNRS) <i>Social and wealth challenges of aging: Old-age provision and intergenerational relations</i>
15:10	Scientific session II – Adapting to an Aging Society
15:15	Penny Roberts <i>Enriched Environment and Pain in Older Adults</i>
15:30	Abstract Call 2
15:45	Hugo Bertillot & Marie-Aline Bloch (DdV program) <i>Neo-fragmentation in elderly care: reinventing Policy Piloting toward Integration</i>
16:00	Coffea Break
16:30	Victoria Cristancho-Lacroix & Anne-Sophie Rigaud (DdV program) <i>Role of attitudes and acceptability during a short exposition of Paro robot in patients with dementia</i>
16:45	Armelle Klein & Frédéric Sandron (DdV program) <i>Old people facing new technologies: first results of a survey in Reunion Island</i>
17:00	Vincent Touzé & Gilles Le Garrec (Science Po – OFCE) <i>Intergenerational transfers in an aging economy trapped in secular stagnation</i>
17:20	Keynote #4 – Archana Singh-Manoux (U. College London & Inserm, UK & France) <i>A lifecourse approach to cognitive ageing and dementia</i>
18:00	End of the Day 1
18:05	<i>Meeting of the members of the DdV program (small room)</i>
18:30	<i>Remise des diplômes Masters</i>
20:30	Meet the speakers'Dinner <i>Au petit Marguery</i>

New Views On Aging

Conference 14th & 15th September 2017 in Paris

Friday 15 th September – Morning session	
09:00	Keynote #5 – Pierre Devolder (U. Catholique de Louvain, Belgium) <i>Designing and financing social security pension schemes in an aging society</i>
09:45	Scientific Session III – The mechanisms and biomarkers of aging from model organisms to human
09:50	Jean-François Lemaître (Université Lyon 1, France) <i>The variability of aging patterns in the wild</i>
10:05	Michael Rera <i>Two phases of aging separated by the Smurf transition as a public path to death</i>
10:20	Florence Solari (Université Lyon 1, France) <i>Muscle aging and lifespan in C. elegans</i>
10:35	Coffea Break
11:05	Simon Toupance <i>Telomere Length and Atherosclerotic Cardiovascular Disease: The Blood-and-Muscle Model</i>
11:20	Nolwenn Joffin & Philippe Noirez <i>Skeletal muscle function and markers of mitochondrial metabolism in elderly men according to dynapenia and obesity status</i>
11:35	Alexandre Henriques & Michael Spedding <i>Mitochondrial pharmacology in aging, disease and neurodegeneration</i>
11:50	Adrien Marck et Jean-François Toussaint (DdV program) <i>The relationship between age and performance</i>
12:10	Keynote #6 – Guido Kroemer (INSERM/Paris Descartes, France) <i>Autophagy induction for combating age-associated diseases</i>
12:50	Lunch: Caloric Restriction + Poster session #2 Exhibition: wandering in virtual reality environments

New Views On Aging

Conference 14th & 15th September 2017 in Paris

Friday 15th September – Afternoon session	
14:20	Keynote #7 – Kaare Christensen (Institut Max Planck Odense, Denmark) <i>Perceived age as a biomarker of ageing</i>
15:05	Scientific Session IV – From the pursuit of longevity to healthy aging
15:10	Juliana Antero (IRMES-INSEP, France) <i>Learning from leaders: insights to longevity trends from the longest-lived humans</i>
15:25	Valentina La Corte (DdV program) <i>False memories and aging: evidence from virtual reality</i>
15:40	Yifan Yang <i>Evolutionary and statistical origins of E.coli ageing patterns</i>
15:55	Fabien Pifferi (MNHN, France) <i>Caloric restriction, anti-aging strategy in mouse lemur</i>
16:10	Coffea Break
16:40	Fathia Djelti et Jacques Epelbaum (DdV program) <i>Glucose homeostasis, cognition and pathological aging in mouse lemurs</i>
16:55	Julien Robert-GrandJean <i>Maintenance of membrane organization in the aging mouse brain: a key factor for enabling response to anti-Alzheimer treatments</i>
17:10	Eric Le Bourg (Université de Toulouse, France) <i>Mild stresses have positive effects on ageing and resistance to severe stress in Drosophila melanogaster: Of interest for human beings?</i>
17:30	Keynote #8 – Keynote Speaker (to be announced soon)
18:20	Conclusions & End of the academic conference
